

dis

/

placed

A week-long programme of events in response to global demographic shifts and unprecedented levels of human displacement.

Featuring over 40 artists working across visual art, film, photography, Live Art, performance and design, **dis/placed** considers the experiences of people who are 'staying temporarily', sometimes for generations, in stateless limbos, detention centres, refugee camps or urban settlements — living within a country's borders yet outside its political, legal and civic life.

**dis/placed** invites audiences to explore a mixed media exhibition and participate in a daily programme of learning labs, workshops, performances, interventions and screenings.

16—21 June 2015  
11am—9pm

The Ditch, Shoreditch Town Hall  
380 Old Street  
London EC1V 9LT
